

Accounting Services Tilimatic Oy

Finland is a challenging market, especially for foreign companies new to Finnish regulations and practices. Making the right decisions requires an understanding of business in both Finland and abroad. Accounting Services Tilimatic is the choice of foreign subsidiaries to handle their accounting. Answering the following questions will help you understand that we are also the right choice for you.

Why should I use an accounting firm at all?

Because specialisation yields results. When your day-to-day operational infrastructure functions efficiently, you can focus on what's essential – your core business. You get guaranteed value for money by leaving the figures to experts, who are always available. This is becoming increasingly important even for small-to-medium-size companies.

Why Accounting Services Tilimatic?

Because practice makes perfect. Established in 1979, Accounting Services Tilimatic has over 25 years of experience serving clients just like you with our extensive know-how of Finnish and international accounting (IFRS and US GAAP) and group reporting. The leading partner for foreign subsidiaries operating in Finland, we are located in the heart of Helsinki close to all banks, audit and lawyer firms. We have conference facilities for our clients and a staff of 25 people to serve you in three languages (Finnish, Swedish and English). Our wide network and many partners aid our clients in starting up a company, opening bank accounts, finding an auditor or lawyer, and so on.

What are the immediate benefits of using Accounting Services Tilimatic?

You can leave your competition behind. Our comprehensive and up-to-date service puts internationally experienced professionals and the latest technology at your disposal – whenever and wherever you need it via our e-system.

What accounting services does Accounting Services Tilimatic offer?

All of a company's accounting functions. Our wide-ranging expertise will ensure that as our customer, your company's accounting matters will be kept efficiently and reliably. Our range of services includes:

- Book-keeping
- Payroll
- Annual closing of books
- Tax declaration/return
- Tax representative
- Cost accounting
- Ledgers
- Invoicing
- Consultation
- Tax planning
- ASP (application service providing)
- Reporting
- Payment services.

How do I know I can trust Accounting Services Tilimatic?

Because we are an authorized member of the Association of Finnish Accounting Firms, guaranteeing a high standard of expertise. The Association of Finnish Accounting Firms (Taloushallintoliitto), founded in 1968, acts as an umbrella organisation for Finnish accounting firms. Its main functions are information, education, looking after members' interests and promoting good accounting practices. It offers membership only to companies who fulfil strict membership requirements and meet high professional standards.
